

Don, Ken, and CI in Lake Tahoe

"Not a Workshop" Workshop | April 17-19, 2015

Introduction

It's back—again! Capture Integration is returning to the west coast for its sixth medium format digital workshop. This time we are headed to Lake Tahoe. This definitely isn't your normal photography workshop. Don Libby of Iron Creek Photography in Tucson, AZ and Ken Doo Photography have been co-hosting this event for five years now. This is an informal workshop that has grown in popularity, selling out in less than two weeks last year.

Join us for a weekend full of shooting and Capture One Pro training (with lunch included). Would you like to request some equipment to test and evaluate? Let us know if you're interested in a specific digital back, lens or accessory – we are more than happy to accommodate your equipment requests. Contact Capture Integration to submit your equipment requests today. Also check out the Facebook page to see who all will be attending.

Workshop fee covers the Capture One Pro training, Friday lunch and Saturday dinner. Attendees are responsible for hotel, meals, and incidentals.
